NEW ! Internet Chess

In the future, Chess matches will take place over the Internet and this year we are trying it out for the first time ! But only with a limited number of schools, and only one team per school.

The introductory price is 20e but there is a small risk it may not work perfectly, and you must be willing to risk losing the 20e if it does not work ! Depending on entries, it is hoped to have 3-6 matches with schools from anywhere in Ireland.

Teams will consist of four players, and www.chess.com will be used for playing games. 'Live-Chess' is what will be used, as opposed to 'correspondence chess'.

Before signing up, check the following please....

1. Can you get 4 adjacent computers in the school's IT Centre for an hour per match
2. Can you create 4 email accounts, preferably on Gmail, Hotmail, or Yahoo
3. Use these 4 email accounts to create 4 user accounts in www.chess.com

The user-name format should be as follows...

'School-name_Location_Bx'

where 'School-name' and 'Location' may be abbreviated, and

Bx is the Board number

e.g. 4 user-names could be.....

'St_Marys_Adare_B1' (board-1)

'St_Marys_Adare_B2' (board-2)

'St_Marys_Adare_B3' (board-3)

'St_Marys_Adare_B4' (board-4)

Check that you can play 4 games simultaneously.

Entry form – mobile number and email address are ESSENTIAL. Entry Date: 20-Dec

----- Internet chess -----
